

About HOPPECKE

HOPPECKE is the largest family-run manufacturer of industrial batteries in Europe. Since 1927, the German company has been developing, producing, and marketing high-quality and reliable energy storage systems worldwide.

Thanks to leading research and development activities in the industry, HOPPECKE has all proven and relevant storage technologies in its portfolio. The Sauerland-based manufacturer thus offers customers all over the world complete solutions for an efficient, reliable and sustainable energy supply for emission-free drives, secure power supply and storage of regenerative energies.

From the comprehensive product range of batteries and cells to complete energy systems with state-of-the-art charging technologies, monitoring units and engineering, to usage-based energy billing - the portfolio always includes the right product tailored to individual customer needs.

With the development of marketable, forward-looking energy storage solutions, HOPPECKE is making an important contribution to solving the social challenges arising from the implementation of global climate protection targets, the energy transition and increasing digitalisation.

With its headquarters in Brilon-Hoppecke (Germany), 22 subsidiaries and 12 production and assembly sites worldwide, the family-owned company employs more than 2,000 people and generates a turnover of more than 530 million euros.
