- Certificated and well trained staff

360° Lifecycle Services

Our comprehensive and proven service portfolio covers the entire lifecycle of your batteries as well as the complete energy system. Lifecycle Services – highest level of competence, fast, reliable, and available on call for you!

Smart Services

Energy is becoming increasingly a key success factor. Lack of energy leads to an unplanned shutdown. The incorrect usage may lead to major expenditure costs. The proper and efficient use plus correct maintenance secures your investment and the sustainable running of the complete energy system for the lowest possible TCO.

Our trak | service line ensure the continuous operational readiness whenever required of your Energy systems. With trak | optimizer, we also provide a range of smart services to secure continuous energy availability with sustainable and optimized usage.

trak | optimizer

Complete support for your energy storage systems, chargers and charging stations by our factory customer service at your site. We offer you an operator model individually tailored to your needs up to 24/7 shift coverage.

trak | ecomizer

Holistic and sustainable energy solution for the demand-oriented provision of your traction energy. We design, finance, install and operate your energy system – You do not need to take care of anything and only pay for the traction energy you consume.

Your plus with trak | optimizer

- You focus on your core business
- Optimum use and maintenance of your energy system by the expert
- Relief of your processes – without disturbing you
- Problem solution without response times
- Optimised operating costs by increased availability of you energy system

Your plus with trak | ecomizer

- A contact partner for your traction energy issues
- 100 % energy availability – guaranteed
- Assuming responsibility for your energy system
- Consumption-based energy billing provides high cost transparency and allows reliable planning
- No investments (Off-Balance) – Batteries, chargers and charging stations are provided as required
